

## **SUMMARY**

### **Compact High Performance HF Transceiver**

The FT-600 combines the straightforward, practical layout of a commercial radio with advanced features on the front panel. The simplicity of the front panel design includes touch-sensitive memory, and band stepping, while four knobs control Clarifier, Volume, Squelch, and Bandwidth. Other features include Direct Frequency Entry Keypad for quick QSY. 100 Watts Power output for SSB and CW operation. And MIL-STD 810 — to meet rugged commercial-grade construction requirements.

## **FEATURES**

### **+ Front-Facing Speaker**

For outdoor operation where noise is present, the front-facing speaker provides clear audio and the audio readability for the user.

### **+ 100 Memory Channels**

The memories are arranged in banks of 25 channels each, allowing you to store and recall them efficiently when seconds count.

### **+ Alpha-Numeric Display**

An Alpha-Numeric label may be appended to a memory channel, to provide easy channel identification and recognition.

### **+ MIL-STD 810 Rating**

The FT-600 meets the exacting requirements of the U.S. military's MIL-STD 810 for shock and vibration, ensuring you of reliability under difficult operating conditions.
